Clinical trials offer **TREATMENT OPTIONS** for patients and **VALUABLE RESEARCH** for society.

But trial participation can present **UNEXPECTED COSTS** for patients.

- Travel & transportation to trials sites
- Meals
- Time off of work
- Lodging
- Child care

Patients need:

- Greater awareness of costs
- Better access to reimbursement resources
- Policies that allow for trial participant reimbursement

**COST SHOULDN'T STOP PATIENTS** from participating in clinical trials.
